There are free options out there. Every week the iTunes store gives away a song but it can get tedious keeping up. Lucky for us, someone has created a blog linking to every free song available for download each week, complete with a feed to notify you of updates. For video, you can convert your DVDs or existing movie files with Videora or Squint, but you can also find new indie, student, and music video at the recently announced iPod Film Festival. — Matt HaugheyFree iTunes Songs blog iPod Film Festival
